6 The necessity for an enlargement
of the additional establishment has been
explained in Gitaly Comptroller's letter no 1135
dated the 6th Sept/15. The total cost of the
additional establishment is Rs 19/- per
mensem. The officer in charge of the vaccine
Institute states that there will be no need
to continue to pay the allowance of Rs 4/- per
mensem, for the servants of the institute
for shaving calves and washing bandages
in case the additional establishment is
sanctioned.

Sir,

In submitting herewith copy of letter No. 92 dated the 12th Ultimo from the Officer in charge of the Vaccine Institute, I have the honor to recommend that the additional establishment asked for for the Institute consisting of one watchman on Rs. 7/- and a peon on Rs. 8/- and the increase of pay recommended to the Attendant and two of the watchmen may be sanctioned. The shifting of the Institute from the premises of the Lunatic Asylum, the addition of an incubation stall and the increase of work generally in the Institute have entailed a material increase in the work of the menial staff and the revision of establishment proposed is therefore absolutely necessary.

Letter No. 92 dated the 12th August 1915 from
the Officer in charge of the Vaccine Institute to the
Sanitary Commissioner in Mysore.

-----:0:-----

In submitting for your favorable consideration a proposition statement in duplicate for additional establishment required for the Vaccine Institute, I have the honor to inform you that the present staff of menial servants consisting of one Head Watchman and two watchmen was sanctioned in the year 1905. Then the Vaccine Institute was situated near the Lunatic Asylum, and the cleaning of the compound and of some of the calf-sheds was done by the Lunatic Asylum staff as part of their work and the watchmen were thus able to devote all their time to the vaccinated calves and the incubation stall. The Institute building consisted of three rooms which served as an office and laboratory.

2. But now the Institute has an extensive compound of its own with a large bungalow and out-houses and two large up-to-date incubating stalls. The work in the Institute has also increased of late, as is shown by the enclosed statements showing the number of vaccinated calves and and the quantity of vaccine despatched.

Under these altered conditions in the Institute, the existing staff of watchmen is quite inadequate.

3. The so-called " attendant " under the present scale is more of a peon than an attendant and he does peon's work. The laboratory attendant's work is at present done by one of the watchmen. This arrangement though highly undesirable from an aseptic point of view has so far been unavoidable. A separate laboratory attendant is therefore provided in the proposed scale.

2.

scale, and as he is to be an intelligent and fairly educated man his pay is fixed at Rs. 10/- per mensem.

4. The attendant of the present scale will continue as peon and is designated as peon in the proposed scale.

5. Under Government Order No. 9686-7 Sany. 205-07-2 dated the 26th March 1908 a monthly allowance of Rs. 2/- for shaving calves and Rs. 2/- for washing bandages is ~~be~~ being paid to the servants of the Institute, out of the contingencies and in my No. 638 dated the 28th April 1915— I have recommended that this allowance be enhanced to Rs. 3/- in each case. But if the proposed scale of establishment is sanctioned, I do not see the need for continuing these allowances. The shaving of calves will be done by the Laboratory attendant as part of his duties, and as there will be 4 watchmen instead of three the washing of bandages will be done by each of them in turn without much difficulty.

6. An increase of rupee one each is proposed for the Head watchman and one watchman as the work they have to do requires experience in the handling of calves and attention to other details and new comers are not able to do the work satisfactorily. The increased pay will be an incentive to the other watchmen to continue to work in the Institute in the hope of getting promoted to a higher grade.

7. If the monthly allowances referred to in para 5 above are stopped, the additional expenditure consequent on the increased establishment will be only Rs. 15/- per month. This additional expenditure could be met current year out of savings from the current year's budget grant and in due course. I shall submit an appropriation statement, pointing out the source from which savings could be effected.

effected.

8. I request you to be good enough to obtain early sanction of the Government for the entertainment of the additional hands.

SIR,

I have the honor to forward herewith duly verified a statement in duplicate for the revision of the Vaccine Institute, Bangalore and its covering letter No. 1302 dated 21st September 1915, addressed to you by the Sanitary Commissioner in Mysore together with its enclosures.

The proposition is to increase the existing scale by one Laboratory Attendant on Rs. 10/- per mensem and a Watchman on Rs. 7/- per mensem to raise the pay of the Head Watchman and of another Watchman by Re. 1/-; and to continue the present Attendant on Rs. 8/- as a peon on the same pay.

The financial effect of the proposition is an addition of Rs. 19/ per mensem or Rs. 228/- per annum to the permanent recurring expenditure of the State. The specific source from which the extra cost, if sanctioned during the current year, should be met is not pointed out by the Sanitary Commissioner.

In paragraph 5 of his letter No. 92/- dated 13th August 1915, to the Sanitary Commissioner in Mysore the officer in charge of the Vaccine Institute states that allowances to the extent of Rs. 4/- are now being paid for shaving calves and washing bandages to some servants of the Institute out of the contingent grant and that there will be no need for

SIR,

I have the honor to forward herewith a re-appropriation statement in duplicate received from the Sanitary Commissioner to provide for a sum of Rs.48-3-3 for meeting the extra expenditure to be incurred in connexion with the revision of menial establishment of the Vaccine Institute, together with his letter No.2350/2 dated 18th December 1915 to your address.

The provision is not made for Rs.114/- in the statement as stated in his letter. The reason for the difference is explained by the Sanitary Commissioner as follows:-

"The sum of Rs.114/- stated in the letter relates to the total additional allotment required for 6 months at the rate of Rs.19/- per mensem; but the provision now made in the reappropriation statement is only for 4 months beginning from 1st March to 30th June 1916, to admit of the proposal being sanctioned during the current year".
